## SUMMARY

---

Computer science graduate, fast learner with a strong work ethic and a passion for solving critical real world problems in full stack development, over the past few years I have dedicated my time volunteering at Iskcon

## OBJECTIVE

---

Committed to continuous learning and growth. Seeking entry level position in software engineering roles in a collaborative environment to contribute to a dynamic team and progress towards leadership positions taking more responsibility over time that fosters skill advancements and encourages innovation.

## SKILLS

---

- Server Side - Python, Node JS, Express, Flask, Nginx, REST API, Clean code architecture
- Client Side - HTML, CSS, Javascript, React JS, Tailwind CSS, Flutter
- Database – SQL, MySQL, NoSQL, SQLite, MongoDB, Firebase Firestore
- Other – Git, Linux, AWS EC2 & Lambda serverless, Docker, Problem Solving, Data Structures, Algorithms

## EDUCATION

---

**K. J. Somaiya College (NAAC Accredited - A, Affiliated to University of Mumbai)**

**Mumbai**

**Bachelor's Degree, Computer Science**

**Jun 2019 - May 2022**

- Secured A+ grade (distinction) and was among top 5 students, earning a CGPA of 9.5/10
- Relevant coursework: Data Structures and Algorithms, Web Services, Database Systems, Software Engineering, Operating Systems, Computer Networks, Artificial Intelligence, Machine Learning, Data Mining, Linux, & Big Data
- Participated in coding competitions, attending riidl startup workshops and seminars on emerging technologies and industry trends sharpening analytical, problem-solving skills with strong ability to quickly learn
- Developed a solid foundation in computer science principles, including problem-solving, algorithm design, debugging, cybersecurity, ethical hacking, testing and agile software development methodologies
- Engaged in team-based projects, encouraging collaboration, communication, and project management skills

## PROJECTS

---

- **Personal Portfolio Website:** Showcasing all my live projects frontend UI/UX design skills & backend - [preview](#)
- **Online Code Editor:** Codepen Style code editor for HTML, CSS, and Javascript hosted on AWS EC2 - [source code](#)
- **Spotify UI Android App:** Spotify Music player UI implementation android app using flutter/dart - [source code](#)
- **Tenor GIF Browser Extension:** Built a chrome browser extension empowering users to effortlessly search, select, and share GIFs by simply dragging and dropping them into their conversations using tenor api - [source code](#)
- **Resume Builder:** React Js app for creating resume using job post relevant keywords and user edits - [source code](#)  
View source code of above and other projects on [Github](#) repository and Live previews on my [Portfolio](#) website

## ACHIEVEMENTS & CERTIFICATIONS

---

- Stackoverflow active contributing member and won bounty for solving android development issue
- Volunteer at a non-profit organization HKM Mumbai assisted in implementing android social automation app, resulting in a 30% increase in efficiency and time savings facilitating seamless communication with followers
- Enhanced software engineering skills through completion of specialized courses on Coursera such as Machine Learning | Essential Google Cloud Infrastructure: Foundation | Data Structures | Agile Software Development | Python to Access Web Data | Capstone: Retrieving, Processing & Visualizing Data with Python View Degree - [here](#) | View Marksheets - [here](#) | Verify Certificates - [here](#)
